email: scottish.section@irse.org

Notices:

The IRSE Scottish Section Annual Dinner shall be held on Thursday 14th November 2013. This is now firmly established as one of the largest annual rail events in Scotland, whilst retaining an informal and friendly atmosphere. The dinner will be served at 7.50pm with guests assembling in the bar area from about 7.30pm following the lecture in the adjacent room.

Continuing from previous years' successful events, we are holding the dinner in the Marriott Hotel, Argyle Street, Glasgow. This will follow the November IRSE lecture - "Subway Modernisation - The Past, The Present and The Future" by Charlie Hoskins of SPT. We are grateful to Siemens Rail Automation for their financial support for this year's event.

If you would like to attend the Annual Dinner, please contact Peter Allan, as below.
